

Learning Management Software cc

If you are looking for a solution to your training administration nightmares, look no further!

For a once off fee (starting at the salary for a reasonably paid Admin Clerk for one month, you can get your own Learning Management System LMS.

The Virtual-IT Learning Management Systems (LMS's) are affordable, easy to use databases that will manage your Learner data no matter the size of your company. Our clients range from SMME's in rural KZN to International Corporations training thousands of Learners.

The database resides on your computers or servers and with our rapid deployment feature you can be up and running in no time. There are no Annual licence fee's nor fees per Learner and did we tell you it's easy to use?

The systems are installed via the internet, come with a training manual, unlimited access to training videos and six months support!

So what does the LMS Pro version include?
