

THE UNIFIED LEARNING SUITE - ULS

Why Chose the Unified Learning Suite?

1. Easy Enrollment

- Quick Learner self registration. New learners either manually register on the eLearning portal or add data via Microsoft Forms
- Via ULS you can follow Learner progress from enrollment to graduation.

2. Efficient Data Management

- Store and manage learner information securely.
- Learners can take Assessments on the eLearning platform and export data to the LMS for quality reporting such as QCTO, WSP and ATR

3. Detailed Reports

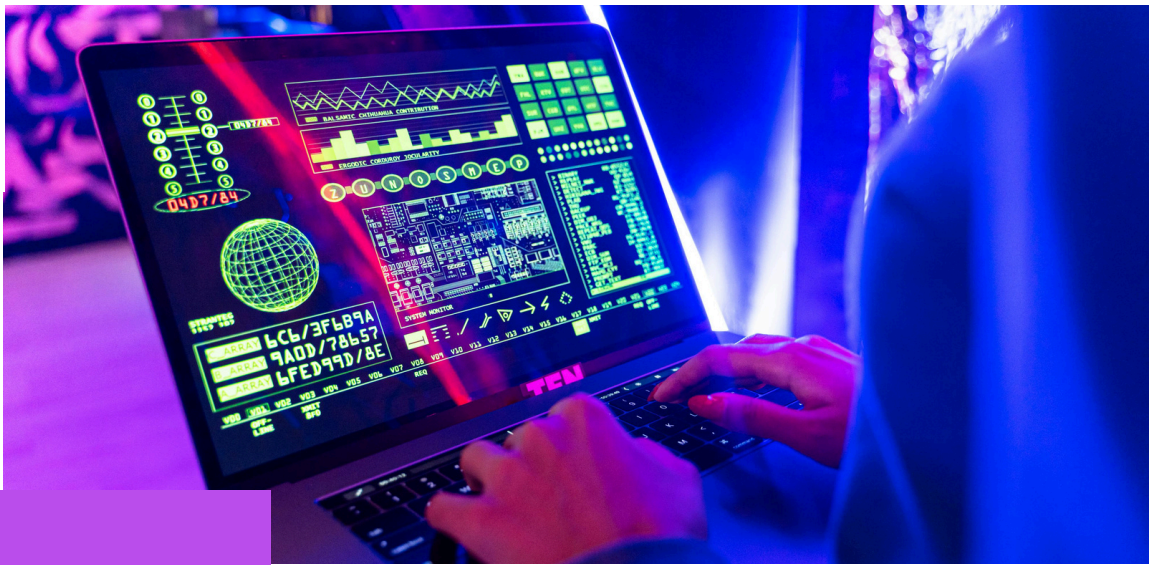

- Generate detailed reports on learner progress.
- Customize spreadsheet exports to meet your specific needs.

Welcome to Virtual-IT's Unified Learning Suite!!

What are the Advantages to Educators of Linking an eLearning Platform to a Learner Management System as an Assessment Tool in South African Adult Education (Considering QCTO Reporting)- Meet the new Virtual-IT ULS- Unified Learning Suite.

In South African adult education, educators must assess learners fairly and also report results to the Quality Council for Trades and Occupations (QCTO). This can be a lot of work. Linking an eLearning platform to an administrative Learner Management System (LMS) helps make this process easier, faster, and more reliable.

One major advantage is automatic tracking and storage of assessment results. The LMS records marks, learner progress, and attendance in real time. This means educators spend less time doing admin and have more time to support learners.

5. Self Host or Host on Our Cloud Server

- You can host the LMS on your own Computers, Network or Cloud Server
- Or you can host it on our Cloud Server and Protect sensitive learner information with advanced security.

Regular updates and backups ensure data safety.

4. User-Friendly Interface

- Intuitive design for easy navigation.
- No technical expertise required.

Explore the Benefits

Streamline Your Administrative Tasks

1. Easy online training content for Learners to access anywhere.

- Easy registration forms for Learners to add in their own data

2. Centralized Information

- All learner data in one place for quick access and management.

3. Automated Reports

- Save time with pre-built report templates and spreadsheet exports

4. Improved Communication

- Directly communicate with learners and guardians through the system.

Join Us Now

Linking an eLearning platform to an LMS makes assessments easier for educators and helps them meet QCTO reporting standards with confidence and accuracy.
